13014103

ORIGINALLY LICENSED

08/19/2024

LOCATION

QUINCY, FL 32352

EXPIRATION DATE

08/31/2028

How This License Relates to Solar Work

Electrical Contractor, matched by name -- not a dedicated solar credential

Florida law allows a licensed Electrical Contractor to perform solar (PV) installation work without holding the separate Certified Solar Contractor (CVC) credential. This business was identified as solar-relevant by its name, not by a dedicated classification -- it holds a general Electrical Contractor license, verified for electrical work, but Florida has no separate credential confirming solar-specific competency for this license type.

Disciplinary Actions & Complaints

Not checked for this license

Not checked -- CILB discipline file scoping doesn't cover EC licenses

License data sourced from the Florida Department of Business and Professional Regulation (DBPR) public license extracts (Construction and Electrical Contractor rosters), cross-referenced against Construction Industry Licensing Board (CILB) disciplinary action reports where applicable. This report reflects what DBPR had on file as of the retrieval date and is not a substitute for confirming status directly with DBPR before hiring.
