ADDRESS

1002 Harrison Ave. Suite 206
ARLINGTON, TX 76011 (TARRANT County)

EXPIRATION DATE

9/2/2027

ON FILE SINCE

2026-09-14

What This Registration Covers

Sales registration, not an installation license

Texas's Residential Solar Retailer registration (created by SB 1036) governs the **sales/lease transaction** for a residential solar system — required contract disclosures, the right to cancel, and a ban on misleading claims. It is **not** a license verifying installation competency. The actual installation work is separately governed by licensed Electrical Contractors under Texas's Electrical Safety and Licensing Act — and electrical contractors are exempt from registering as solar retailers at all. Verifying who is licensed to physically install this system is a separate check this report does not yet include.

Disciplinary Actions & Complaints

Not yet available for Texas

This directory has not yet built a disciplinary-action, BBB complaint, or bankruptcy-filing data source for Texas solar retailers. The absence of flags here means this hasn't been checked yet — it is not a claim that this business has a clean record.

Registration data sourced from the Texas Department of Licensing and Regulation (TDLR) Residential Solar Retailer program public license export, snapshot recorded 2026-09-14. This program launched in August 2026; status history is limited and this pipeline does not yet detect a registration silently disappearing from a future export. This report reflects what TDLR had on file as of the snapshot date and is not a substitute for confirming status directly with TDLR before hiring.
